

ACI FOUNDATION EMBARGOED COUNTRIES POLICY

The ACI Foundation shall not, directly or through its Concrete Research Council, Concrete Innovation Council, or its Scholarship Council:

- Provide any scholarship or fellowship funds to an institution in a fully embargoed country, as defined by the United States Government;
- Provide any scholarship or fellowship funds to a student for purposes of pursuing studies at an institution in a fully embargoed country;
- Provide any research funding to an individual, institution, or company in a fully embargoed country; or
- Provide any scholarship, fellowship, or research funds to any person appearing on the Specially Designated Nationals And Blocked Persons List as maintained by the United States Department of the Treasury, Office of Foreign Asset Controls

This policy does not prevent the ACI Foundation from providing fellowship, scholarship, or research funding to individuals residing in non-embargoed countries merely because they are citizens of a fully embargoed country.

The ACI Foundation will make reasonable best efforts to remain current on which countries are fully embargoed. The ACI Foundation, directly or through its Scholarship Council, Concrete Research Council, or Concrete Innovation Council, will check the Specially Designated Nationals And Blocked Persons List before awarding any fellowship, scholarship, or research funding to ensure compliance with this policy.
